8.30am-1.00pm
2.00pm-6.30pm

Further details on urgent appointments can be found at www.lenvalleypractice.co.uk, our written information booklet or via the reception team.

Len Valley Practice is trying to reduce our patients having to attend the local A&E departments for ailments and conditions that could be better dealt with by us.

- Did you know it costs between £96 to £147 for every attendance?
- This can run into thousands if you are kept in overnight.
- In A&E, you'll often see a junior doctor who will not have access to your records
- During 'out of office hours' you can be redirected to the GPs on call who are often better at dealing with your primary care problems
- You can always speak to a GP here if you feel you have an urgent problem between 8am and 6pm
- We do offer a minor injury service at Len Valley, and are able to redirect you appropriately to A&E if need be.
- We can deal with sprains, suspected fractures, cuts and lacerations that may need stitches, burns and scalds, head injuries
- If you feel that you may need to go a A&E during 8am & 6pm, please ring the surgery first to discuss with the on-call Doctor.
